

High Aspirations, Moral Strength, Spiritual Depth

Introduction

The learning of a foreign language provides a valuable educational, social and cultural experience for pupils. Pupils develop communication and literacy skills that lay the foundation for future language learning. They develop linguistic competence, extend their knowledge of how language works and explore differences and similarities between another language and English. Learning another language raises awareness of the multilingual and multicultural world and introduces an international dimension to pupils' learning, giving them an insight into their own culture and those of others. The learning of a foreign language provides a medium for cross-curricular links and for reinforcement of knowledge, skills and understanding developed in other subjects.

Aims and Objectives

The aims and objectives for children to learn a Modern Foreign Language at Andrews' Endowed Church of England Primary School are to:

- foster an interest in learning another language;
- introduce young children to another language in a way that is enjoyable and fun;
- stimulate and encourage children's curiosity about language;
- encourage children to be aware that language has structure and that the structure differs from one language to another;
- help the children develop their awareness of cultural differences in other countries;
- develop their speaking and listening skills;
- lay the foundations for future study;
- extend language teaching beyond mother tongue learning.

Continuity and Progression

French is taught from Year 1 to Year 6 with children in KS1 receiving 45 minutes per week, and KS2 receiving 50-60 minutes per week. This time allocation is made up of a combination of dedicated language lessons by our subject specialist, and using language for real purposes in daily classroom routines led by the class teachers and the (pupil) "Chefs" (Language Leaders).

Teaching and Learning

Children are taught how to:

- Ask and answer questions;
- Use correct pronunciation;
- Memorise words;
- Interpret meaning;
- Understand basic grammar;
- Use dictionaries;
- Work in pairs and groups to communicate in a modern foreign language ;
- Look at life in another culture.

The main foreign language that we teach the children is French.

Key Stage 1

Although there is no national entitlement to a foreign language in KS1, we believe that early exposure to French has a beneficial and positive effect on the children's learning. Children enter KS2 with an already well-developed awareness of how French sounds, of basic similarities and differences in French and English life, and with a range of basic vocabulary and skills which gives them confidence in their ability to progress further. In KS1 children listen to French stories, join in songs, play traditional games and watch television, with learning becoming gradually more structured, with the games, songs and stories focussed on learning specific vocabulary and skills. Learning is mostly through speaking and listening, although towards the end of KS1 children begin to look at the words they are learning, spotting patterns, similarities and differences, ready for the greater emphasis on reading and writing that comes in KS2.

Key Stage 2

The school's scheme of work is based on the guidance material in the 2014 Programme of Study and the KS2 National Framework for Languages. A variety of techniques are used to encourage the children to have an active engagement with French, including games, role play and action songs. Puppets and soft toys are often used to demonstrate the foreign language. Teachers also use mime to present new vocabulary, as this serves to demonstrate French without the need for translation. Listening, responding and speaking skills are emphasised and simple reading and writing skills follow. We also use a multi sensory and kinaesthetic approach to teaching, i.e. we try to introduce a physical element into some of the games, as we believe that this serves to reinforce memory. Lessons are made as entertaining and enjoyable as possible, as we realise that this approach serves to develop a positive attitude in the children to the learning of modern foreign languages. We build children's confidence through constant praise for any contribution they make in the foreign language, however tentative. Our school is committed to intercultural understanding, and our active link with our partner primary school in France (giving pupils in Upper KS2 a French pen-pal of their own) serves to make language learning a very real experience.

The Programme of Study and the Framework for Languages

We use the PoS and the Framework for Languages as a basis for long, medium and short-term planning, adapting it to meet the needs of our children. We use the Framework to be creative and innovative and to devise programmes of work and activities, which will engage, excite and challenge children. Where possible, French language teaching is linked to other areas of the curriculum.

We teach clearly progressive core strands of teaching and learning over the four years of KS2:

- Listening, Speaking, Reading, Writing
- Intercultural understanding

Assessment

In both key stages, children's progress is assessed informally in lessons, recorded and evaluated in accordance with assessment statements based on the Framework for Languages and the PoS. This assessment is used to support teaching and learning. Reporting is annual and in the form of "can do" skill statements.

Collaboration

We work closely with other local primary MFL coordinators our 2 main feeder secondary schools. Coordinators liaise to discuss curriculum, transition to KS3, training opportunities and other ways to move forward.

Monitoring and evaluating the success of the policy

The policy will be monitored and evaluated by:

- Senior Leadership Team (SLT)
- Advisors, inspectors and governors.

The policy and/or procedures will, where necessary, be revised in light of these evaluations.
