

One small step for man ...

Learning Focus

- What is the moon?
- What is it like visiting the moon?
- Who has visited the moon?
- How do we know about the moon?

Neil Armstrong – the first man on the moon

Neil Armstrong was launched into space on 16 July 1969. The mission to space was called Apollo 11. The Apollo 11 rocket was called Saturn V (Saturn 5). Buzz Aldrin and Michael Collins were also part of the Apollo 11 mission. Neil Armstrong was born on August 5, 1930 and died in 2012. He was 82. The moon's surface is made up of dirt and rocks. The moon has many craters which have been made by meteors.
