About this document

This document is a generic guide for parents, carers and young people on using the EHC Hub. It is intended as a basis for local authorities to use to produce their own version, specifically tailored for their local communities.

Local authorities may choose to add additional best practice information that reflects local policy/ process or divide the document up into a number of shorter documents that specifically focus on certain areas of the EHC Hub

Introduction

Since the introduction of The Children & Families Act 2014 and the SEN Code of Practice (2014), local authorities across England have been implementing new processes and pathways to support children and young people with Special Educational Needs and / or Disabilities (SEND). In place of Statements and Learning Disability Assessments, local authorities have a duty to provide an Education, Health & Care Plan (EHCP) for children and young people aged up to 25 who need more support than is already available.

At the heart of the new legislation is a vision of collaborative working across Health, Education and Social Care and an engaging person-centred approach to the whole EHC pathway. However, the administrative processes currently in place to facilitate such an approach is a significant barrier that has left many local authorities struggling to sustain the volume of work, as well as to meet the statutory timeframes set by the Code (SEND Code of Practice 2014).

For many local authorities, the years since the introduction of the reforms has been a challenging period of significant change set against the backdrop of increased demand and ever-challenging budgets. A new way of working is needed, that not only supports local authorities to meet their statutory obligations more efficiently, but that achieves the SEND Code's core principle of the child or young person being at the heart of everything we do.

Idox's EHC Hub is an innovative digital platform for families, professionals and education settings to engage, contribute and collaborate on EHC assessments, plans and reviews. It provides an end-to-end solution for the two core statutory pathways: The twenty-week assessment and planning process and subsequently, the review of those EHC Plans. It puts the child or young person and their family at the heart of these processes and provides easy, secure access for all other case stakeholders to actively contribute and view information.

Putting children, young people and their families at the heart of the EHC process

For children, young people and their families, the Hub can be a one-stop digital resource for them to access and contribute information throughout their EHC journeys. It can be accessed 24 hours a day on a smartphone, tablet or computer and is designed to be easy and intuitive to use without any need for formal training.

One of its most powerful features is the opportunity that it provides to truly capture the child or young person's voice. The *About Me* and *My Parent / Carer's Views* areas are unique multimedia spaces for uploading short video clips, photographs and scanned documents alongside written text to capture a dynamic narrative about their aspirations at the assessment stage, and later for Section A of the EHC Plan.

For children, young people and their families, the EHC Hub offers:

- Online EHC assessment request pathway, including uploading/ sharing reports and or documents
- EHC case tracker with clear, contextual information advice and guidance as well as complete visibility of the statutory timeframes that relate to their case (review and assessment)
- Multimedia spaces to capture the child, young person & families views
- Secure 24/7 online access to all key information, documentation and reports
- Draft EHC plan consultation with ability to submit comments and feedback
- EHCP Review meeting information and invitations

- Ability to provide views/ feedback ahead of the EHC Review meeting
- Automated email alerts and notifications of case updates
- Access for advocates or independent support workers
- Access to multiple child/ Young person's cases via the one login
- Download and save/ print all online case information
- Visibility of the Case Timeline to see all recent case activity

This document is to assist young people, parents, carers or guardians in their use of the EHC Hub.

The Needs Assessment Request Process

The process to request a needs assessment is as follows:

1. The parent/carer/guardian or Young Person over 16 completes the request details and clicks on Send Request.

2. The request is processed by the local authority.

3. The local authority will grant access and send login details to the email provided as part of the request.

4. The parent/carer/guardian or Young Person over 16 will then register and log in to amend the details and upload any documents if required.

Because an account is not required to request a needs assessment, it is not possible to save a request part way through the process and then come back to it later. It is also not possible to upload documents during this part of the request process. Once the request has been sent to the local authority, and the parent/carer/guardian or Young Person over 16 has registered, you will be able to access the request to amend it and upload any documents if you wish to.

You will be directed to the EHC Hub Needs Assessment Request from the local authority website. The following page will appear:

This page provides information about what an Education, Health and Care Plan is, who needs one and how to get one. Read the information and click on the Request an EHC Needs Assessment button at the bottom of the page and the following page will appear:

This will provide more information on the Education, Health and Care Plan. Read the information and click on Request an EHC Needs Assessment to begin the process of requesting an assessment.

This will open the request form ready for completion. As mentioned previously, because an account is not required to request a needs assessment, it is not possible to save a request part way through the process and come back to it later. It is also not possible to upload documents during this part of the request process. Once the request has been sent to the local authority, and the parent/carer/guardian or Younger Person over 16 registered, you will be able to log into the EHC Hub and access the request to amend it and upload any documents you wish. (Click here for details on Registering for the Hub.)
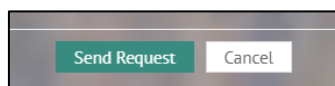

The following page will appear:

After the Information sharing and data protection Statement and the Consent section, there are five sections to be completed. These are:

1. Details of person requesting an EHCP Assessment

2. Child or young person's details
